# ICU A & B Team

# Labor & Delivery Unit Team

Labour and Delivery department 2022 has, in many ways, been eventful. Most importantly, in helping, mothers and families bring their sweet newborns into this world. Sharing the most private and emotional moments for parents with leadership, empowerment, and grace is the biggest achievement for our midwifery and nursing team.

Starting breastfeeding right after the delivery is also very crucial for moms and babies, our team had a big contribution to celebrating the breastfeeding week and continued the support throughout the year.

And so, as we get ready to step into 2023 with delight and bundles, we anticipate that the year will bring UHS new and exciting events.

Labour and Delivery Unit Team

# Medical Surgical Ward 3-4

Thank you for the teamwork and professionalism, I am so proud of you, we will continue the spirit of camaraderie flowing through the coming years.

# Medical Surgical 2<sup>nd</sup> Floor

We are not a team because we work together, we are a team because we respect, trust and care for each other.

Lacking something? We will balance each other out.

Minor setback? We will make a better comeback.

We will keep each other motivated and at the top

In the end, success will always be ours

# Pediatrics /Neonatal Intensive Care Unit

“Teamwork makes great work”. NICU and Pediatric ward – the 2 units with one heart – had the privilege to participate in Nurses Week celebration and events. The nursing team presented “Dancing with the Shadow” and won the second prize in the talent show program. The year marked another win for us by getting the third prize in poster making contest during Breastfeeding Week. We will continue working on making memorable and pleasant moments and growing as a team to higher levels of fulfilment and joy.

# Pediatrics /Neonatal Intensive Care Unit

2022 certainly had its fair share of ups and downs.

While we faced some difficult hurdles in the past year, we are now bracing ourselves and viewing those obstacles as tools to propel us forward in the current year.

# Outpatient Department

2022 was a very challenging year but also interesting. Returning back to normal life post-COVID-19, the OPD nursing team has shown his presence at many levels and in many activities. To keep up with the footfall and the highest standards of care UHS is offering, extensive training sessions were arranged and conducted. We celebrated the ups but we also learned how to stand up tall after the downs. Here are some pictures showing participation in different events such as Breast Cancer, Pressure Wound Awareness days, Nurse's Day, and breastfeeding.

Refer to the glimpse of compassionate Nurses in action during the year 2022.

# OT-Operation Theater Team

Kickoff Party of OT, CSSD, DCU and Dialysis to start the year 2023 with laughter and hope in our hearts

OT and Dialysis presentation for the 2022 Nurses Week Celebration shows the bond between two different areas and perform as one.
